Fountain Hills Blvd. Curb Work Starting

Placement of concrete curb and gutter on Fountain Hills Blvd. (from Pinto Drive to Segundo Drive) began on Monday, June 24. Traffic will be stopped as needed at times by a flagger in tight pavement areas during the curb placement. It is anticipated that both traffic lanes will be open during nights, week-ends, and holidays.

Potholing had located a number of shallow underground, pre-incorporation utility lines, which precluded constructing the originally designed road shoulder ditches, on both sides of the roadway. The revised design now provides for a vertical curb and gutter behind a paved, widened roadway width.

The project is primarily funded by Congestion Management Air Quality (CMAQ) Federal-Aid funds, with a lesser amount of matching funds from the Town. The project construction contractor is Visus; the Arizona Department of Transportation is administering the project's construction, in liaison with Town Staff.
